Page 1 Landing Page

Introduces the platform, summarizes its public-safety purpose, and provides direct actions for account creation and sign-in.

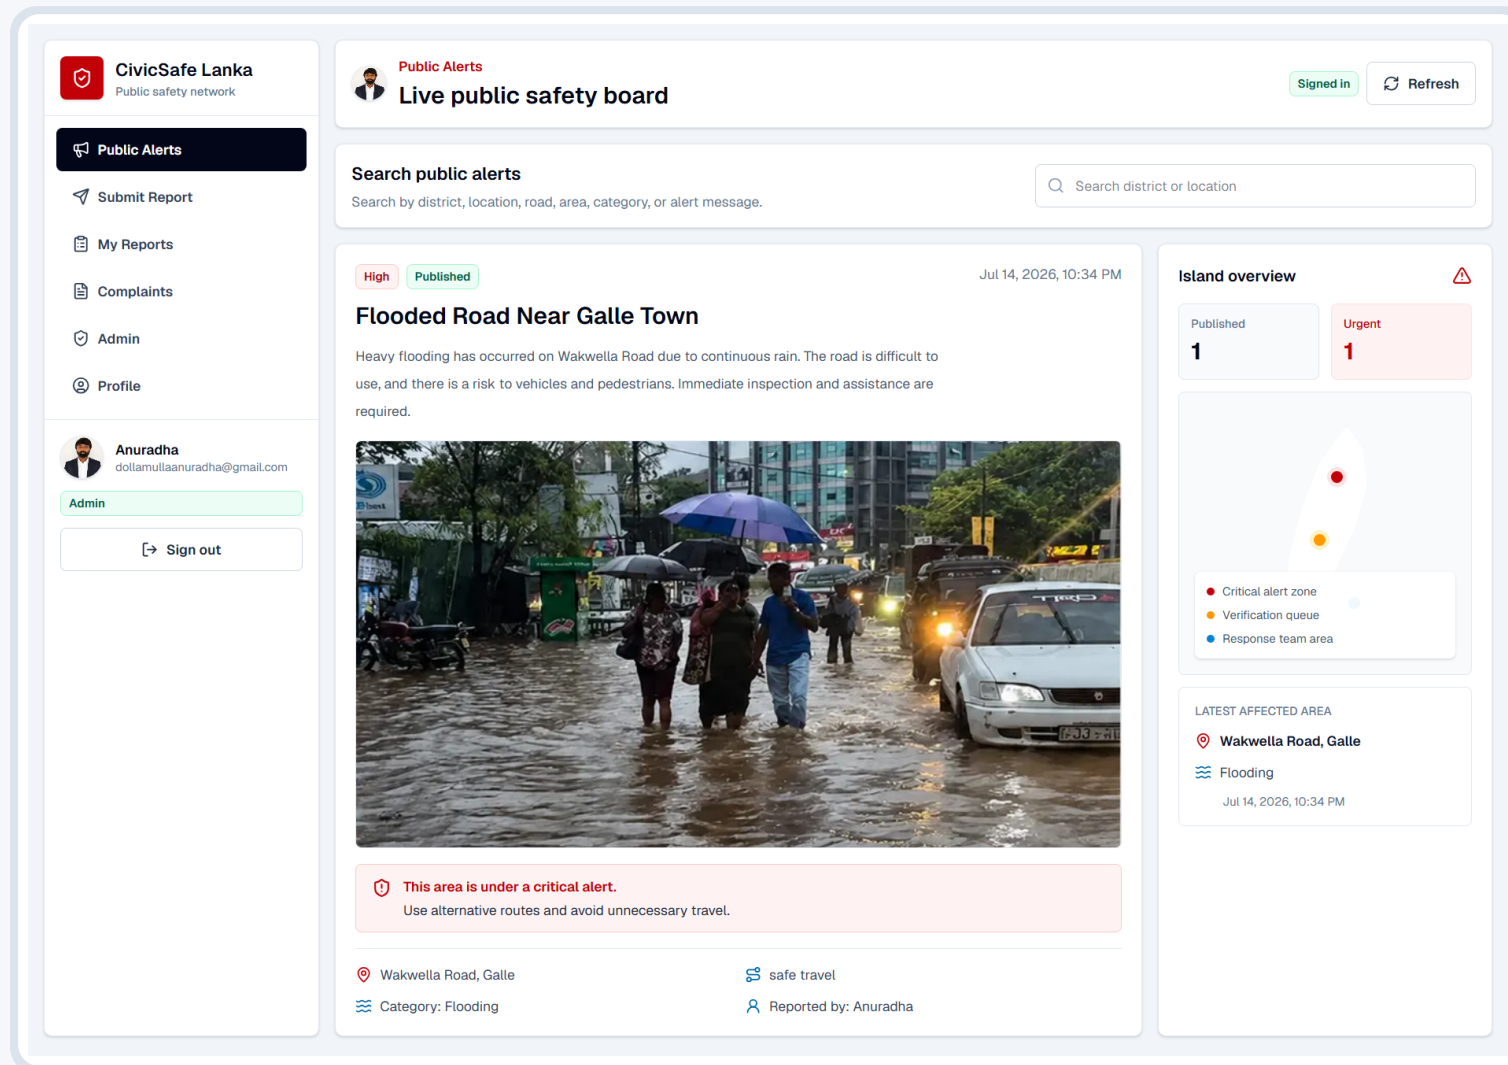

Public Alerts - Guest Access

Allows visitors to browse published safety alerts while providing login and registration controls in the sidebar.

Public Alerts - Signed-in View

Shows the authenticated navigation, current alert details, severity information, affected area, and public safety guidance.

Submit Report

Enables authenticated users to submit a hazard report with category, priority, location, contact details, description, coordinates, and supporting images.
